What's Your Connection to Cancer?

Hopefully none at all but that's highly rare these days unfortunately.

Well for me, cancer took several very important people to me that can't be replaced.

Up until recently, I wouldn't even talk about cancer with anyone.

And now, here I am executive producing a 9-part docuseries on the topic called, The Answer to Cancer.

Since you may be involved in sharing this series with your community...

I wanted to share this very personal 2 minute video about my connection to cancer and WHY I've created this series...

(a deeply personal video from Jeff Hays)

The Highest Converting Health Docuseries You'll Promote This Year...

We're Giving Away \$100,000+ In Contest Prizes!

Jonathan Hunsaker, Jeff Hays + Dr Patrick Gentempo – The Answer To Cancer Launch Affiliate Program JV Invite

Pre-Launch Begins: Thursday, March 26th 2020

Launch Day: Monday, April 6th 2020 – Thursday, April 16th 2020

Fellow JVNP 2.0 Partner, chances are, you'll have at least 20 (or more) opportunities to promote a health docu-series in 2020.

Short on time? [Jump right on over to the JV Page for complete launch details.](#)

The Answer to Cancer docu-series will convert the best.

Here's why...

The Topic

No disease on the planet affects more people, gets more attention or creates more emotion than Cancer.

The Timing

There hasn't been a new successful cancer docu-series in 4 years and the disease is only growing.

The Message

The market has matured and they know that cancer can't be beat by just eating some apricot seeds or wishing it away. **The Answer to Cancer** delivers the WHOLE truth about cancer like never before.

The Marketing

The chief marketer behind **The Answer to Cancer** is the same marketer who created, built and marketed **The Truth About Cancer** in which affiliates earned the highest EPCs and EPLs ever received in the history of docu-series launches.

The Why

How many people have you lost in your life to cancer? What would your life look like if they were still here? This is why **The Answer To Cancer** is so important right now.

Not to mention that the producer of this film, Jeff Hays, lost his mother at the age of 11 and lost his 12 year old son to cancer, and several more dear friends. We're counting on you to help us spread the word so that we can inform (and hopefully save) as many lives as we can.

And this is why we are so confident that promoting **The Answer to Cancer** will be the HIGHEST converting health docu-series you promote this year.

Are you ready to help share this message with the world?

[Visit the JV Page for complete launch details & more.](#)

We appreciate you <3.

The Answer to Cancer: Watch the Powerful Documentary Series

The Answer to Cancer documentary series is meant to help cancer patients avoid the traditional medical sector while curing their illnesses with healthy protocols, prevention and peace of mind.

By [Live Healthier](#) > March 8, 2020 [Full Disclosure](#) [Guides](#) > [How To Be Healthy](#)

The Answer to Cancer is a new documentary series focusing on alternative treatment options for cancer.

The documentary series follows in the footsteps of Jonathan Hunsaker’s The Truth About Cancer, which was a three-part docuseries launched between 2014 and 2016. That docuseries also explored alternative treatment options for cancer.

Jonathan Hunsaker has teamed up with a new crew to launch 2020’s version of his documentary: The Answer to Cancer.

The Answer to Cancer is scheduled to launch on April 7, 2020. You can sign up from March 26 to April 5, 2020.

The documentary series is free to attend. During the airing of the documentary, however, viewers will have the opportunity to purchase merchandise and film assets worth up to \$279.

Keep reading to discover everything you need to know about The Answer to Cancer.

[Watch The Answer to Cancer Documentary Series Here](#)

What is The Answer to Cancer?

The Answer to Cancer is an upcoming documentary that covers alternative treatments for cancer. The documentary is scheduled to air from April 7 to 16, including a replay weekend.

The documentary screening event is free to attend. All you need to do is enter your name and email address into an online form. You’ll receive a link to view the event before it starts.

AdvancedLiving.com content provides generalized information only for education and entertainment. In no way is the content here a substitute for qualified medical advice. Always actively seek a professional dietitian, certified nutritionist, licensed specialist or your doctor for specific consultation before using any supplement our team reviews.

Get in touch at info@AdvancedLiving.com with any trending news, tips or review suggestions. Disclosure: link references clickthroughed can result in referral rewards to support our team.

The Answer to Cancer is expected to highlight similar information to The Truth About Cancer, highlighting alternative treatments for cancer that aren't supported by modern science or medicine. The docuseries may dismiss chemotherapy and other traditional cancer treatments, for example, while emphasizing nutrition and immune system support.

The documentary series has not yet aired – for anything. Trailers and other information about the docuseries are expected to appear online in March 2020, with the full docuseries expected to air starting April 7.

Who's Behind The Answer to Cancer?

The Answer to Cancer was produced by Jeff Hays, a filmmaker and entrepreneur with 20+ years of industry experience. Hays has previously worked with Kevin Costner and Hilary Swank, among other notable actors. His documentaries have also been shortlisted for an Academy Award.

The Answer to Cancer sales page describes filmmaker Jeff Hays as “a legend in the industry”. His recent health documentaries include “[Supplements Revealed](#)”, “Bought”, “Doctored”, and “Undoctored”.

The Answer to Cancer is hosted by Dr. Patrick Gentempo, described as “a well-known and respected star in the world of health, wellness and business”. Dr. Gentempo is not a medical doctor: he's a chiropractor. He sold a successful diagnostic technology business in 2011 and has recently expanded into filmmaking.

The Answer to Cancer is being promoted online by Jonathan Hunsaker, best-known for launching The Truth About Cancer between 2014 and 2016. Hunsaker's copy and businesses have generated over \$150 million in sales over the last ten years.

What Will You Learn in The Answer to Cancer?

The Answer to Cancer explores alternative treatments to cancer. The docuseries was created based on the premise that patients deserve to know all available treatments and medications for cancer – even the treatments that aren't supported by modern medicine.

“No disease on the planet affects more people, gets more attention or creates more emotion than cancer,” explains The Answer to Cancer sales page.

“How many people have you lost in your life to cancer? What would your life look like if they were still here? This is why The Answer to Cancer is so important right now.”

The Answer to Cancer will cover topics similar to what was covered in The Truth About Cancer back in 2014-2016. Covered topics include:

- The politics of cancer research and treatment
- The takeover of medical education by specialist interest groups with for-profit agendas
- How and why certain life-saving treatments have been kept from the public
- Tests that your doctor may not know how to order, and how to get those tests
- Protocols for alternative cancer treatment
- Detoxification, nutrition, and herbal remedies to reduce the risk of cancer
- Enzyme and metabolic or mitochondrial therapies for cancer
- Bio-oxidative therapies for cancer
- Healing cancer with sound, light, and electricity
- Real stories of people who have used these protocols to heal

As you can see, the emphasis is on alternative therapies for cancer: not modern medicine, conventional treatments, or typical cancer drugs. These are the treatments that are not supported by major scientific evidence or medical doctors: they're alternative treatments for people who want to take a different approach to cancer.

The Answer to Cancer docu-series emphasizes that doctors aren't taught to heal cancer: they're taught to prescribe drugs. The docu-series also brings up the fact that people don't die from cancer: they die from the consequences of cancer treatment.

Many of the opinions in The Answer to Cancer are controversial. Many of the claims are unproven. Other claims are based on limited scientific evidence – or no scientific evidence whatsoever.

Again, The Answer to Cancer emphasizes *alternative* cancer treatment.

The opinions in The Truth About Cancer are highly controversial. You can read a detailed explanation of *why* they’re controversial [here](#). Science Based Medicine did a detailed breakdown of each claim made in the original The Truth About Cancer docu-series. The Answer to Cancer is expected to highlight similar information.

Most will dismiss the information in The Answer to Cancer as junk science that gives false hope to the most vulnerable people in the world. Others may see some value in the information.

Ultimately, The Answer to Cancer has not yet aired, and it’s unclear what kind of information will be featured in the docuseries. However, if The Answer to Cancer is similar to The Truth About Cancer, then you can expect controversial opinions – including negative stances towards chemotherapy, modern medicine, and conventional cancer treatments.

Frequently Asked Questions About The Answer to Cancer

Cancer is a serious topic. Users probably have several questions about the solutions presented by The Answer to Cancer documentary series. This section will answer some of the most commonly asked questions about The Answer to Cancer.

Q: Is The Answer to Cancer completely free?

A: The original documentary series is free. Users only need to sign up to attend the series. While the documentary is being aired, users will have the chance to buy additional items and resources related to the document and its contents. The total value of these items will be around \$279, although we speculate that the event will offer discounts pretty frequently at the event.

Q: Who is behind The Answer to Cancer?

A: The documentary series is hosted by Dr. Patrick Gentempo. While this doctor is not a medical professional in the traditional sense, he is a licensed chiropractor. He's known to be a “respected star” within the wellness and alternative health industries. However, users should be aware that this solution to cancer has been developed by an individual who is not licensed as an oncologist.

Q: Can The Answer to Cancer cure cancer?

A: We are not willing to endorse The Answer to Cancer as a standalone solution to any type of cancer. Cancer is a serious disease, and medical science has come a long way to provide patients with effective ways to safely combat nearly any kind of cancer. Very few medical professionals would recommend that cancer patients ditch their chemotherapy for a new diet, for example. However, some parts of the documentary series still remain true; nutrition and diet can be indispensable tools in combating cancer, especially when paired with an effective treatment plan.

Q: Who can use The Answer to Cancer?

A: This program is recommended for anyone who wants to optimize their cancer treatment or help friends and family to do the same. However, we recommend strongly that users consult their primary care physician before relying on any of the advice included in The Answer to Cancer.

Q: Is The Answer to Cancer safe?

A: Especially since the documentary series has not yet been released, it's tough to say if the recommendations included in the system is safe. However, we recommend that the nutritional and exercise advice given in the series is used only with the approval of a medical professional, and usually only in conjunction with traditional treatment methods.

How Much Does The Answer to Cancer Cost?

The Answer to Cancer is free to attend.

You can sign up by entering your email address into the contact page. There are multiple landing pages available across the internet.

Final Word

The Answer to Cancer is a series of documentaries examining alternative treatments to cancer.

What Is The Answer to Cancer

THE ANSWER TO CANCER

PROTOCOLS - PREVENTION - PEACE OF MIND

After a long time of waiting because of the coronavirus outbreak, the originally postponed The Answer to Cancer documentary is finally here. We hope that everyone is as excited as us to learn more about the deadly disease that kills millions of people every year. The shocking thing is that the **reasons behind the cancer** are not what media and most of the doctors tell you. The answer to why the number of people suffering from this disease is rapidly growing every year, and how come that just 100 years ago rarely anybody heard of the word or knew anyone having any form of cancer. Just join us on the journey of watching the series of altogether 9 episodes of The Answer to Cancer documentary.

In layman's words, The Answer to Cancer is a new documentary about cancer and its effects on individuals and society. The 9-Part documentary series will be covering the issues that are as much personal to the individual as it is to the public and all cultures around the world. Let's dive in together and uncover the answer to what the "Cancer" actually is and what it does and can so are being foggy and mostly unknown. Cancer became a new world #1 disease that struck humanity in less than a century ago, and it doesn't pick in between old and young, rich and poor, or a type of culture.

There are many individuals who have cancer running in their family blood-line for the last 4 generations or more and there is still no clear explanation to that.

Has it something to do with the way of lifestyle?

Maybe it's the food we eat.

Or perhaps it's the way we think and act, the Karma finally taking a turn on us, who knows, maybe it's all combined...

But one thing is for sure, nothing happens for no reason and it's totally 100% upon us to take the situation in our hands mainly because it's our own health that we talk about.

It's time to stop putting the blame on other external things and factors, and take full responsibility by educating ourselves and willing to open mind a little bit more every time. That's why this film

document series were made brought to the eye of the public, so everyone can learn and get the full spectrum view on the important and complex subject such as personal health, specifically cancer.

The cancer is a very personal issue in amongst the many cultures, and creators of The Answer to Cancer have put the spotlight on for the year of 2020!

Who is Behind the “The Answer to Cancer” Project?

This is a very good and important question. The TATC project is a multimillion-dollar investment just like every professional documentary, so it needs to bring some important and valuable insights that a lot of people care about on the table, right?

GOLO[®]
for Life

As is quite obvious for everyone to see, cancer is by far one of the deadliest diseases in the world. To put things into perspective, it bears pointing out that as per a study released by the WHO, there has been found to be the cause of one in every six deaths to take place globally. If that wasn't enough, the CDC (Centre for Disease Control and Prevention) recently revealed in a study that every minute a total of three new people are diagnosed with cancer in the United States.

From a treatment standpoint, what makes cancer unique is that it can happen to anyone and there is no one prevention method that seems to work across the board in relation to this life-threatening disease.

A Closer Look at the Project

Many of our readers may remember that [The Truth About Cancer](#) (TTAC) was a three-part documentary that aired across a host of mainstream media avenues from 2014-2016. As part of the documentary, the creators explored in detail a number of traditional, cost-effective methods of treating cancer as well as various ways in which western healthcare systems are repeatedly exploiting their patients by keeping them bound to different drugs and medicines, the profits from which run into the trillions.

Additionally, TTAC also investigated the underbelly of the global medical mafia and how many individuals suffering from cancer are forced to stay bound to certain treatment methods for years just because hospitals, doctors and medicine manufacturers stand to make vast amounts of profit from the pain, suffering and misery of their patients.

What is The Answer to Cancer?

As with TTAC, The Answer to Cancer also seeks to help educate cancer patients about the truth about this disease as well as the various [treatment options](#), both traditional and alternative, that are available in the market today. To be a bit more specific, The Answer to Cancer is a 9-part docuseries that features a number of detailed, insightful interviews from doctors, experts and patients who share their personal experiences of dealing with cancer and the various treatment methods and protocols they have had to go through to cure themselves of the disease.

The core message of the series is to help spread the message of hope as well as to dispel many common negative notions that have become synonymous with cancer in recent decades.

Some interesting facts about cancer worth knowing

Most of our readers are probably aware of the fact that Cancer is among the deadliest diseases but put things into perspective, a [study](#) released by the National Cancer Institute has revealed that 8.2 million cancer-related deaths take place worldwide every year. Lesser developed nations (especially in certain regions of Asia, Africa and Central America), accounted for a whopping 57% of all new cases. If that wasn't enough, 65% of all cancer deaths were also found to have occurred in these countries.

If things continue to head in the direction they seem to be now, it is estimated that by the year 2025, the total number of new cancer cases will rise to a whopping 23.6 million.

Looking at data pertaining solely to the United States, in 2018, the NCI found that a mammoth 1,735,350 new cases of cancer were diagnosed in the United States with the research body estimating that a minimum of 609,640 people will die from the disease within a span of 12 months.

From a purely financial standpoint, it is estimated that the total [national expenditure for cancer](#) in the USA per annum works out to a massive total of \$147.3 billion. However, what is more striking is the fact that these costs are most likely expected to surge as a bulk of the American population continues to age and the prevalence of cancer-type diseases continues to increase.

Cancer mortality rates are considerably lower in developed nations such as America, England, France, etc. when compared to smaller countries located in Africa, South America, etc.

The core personnel behind The Answer to Cancer

Jeff Hays

Jeff is a well-respected filmmaker who has been active in this space for more than 20 years. Not only that, over the years, he has also started a number of independent businesses through which he is able to come into close contact with a number of Hollywood personalities such as Kevin Costner and Hilary Swank.

It also bears mentioning that Hays' documentaries have been short-listed for Academy Awards and some of his recent projects including successful titles like "Bought," "Doctored" and "Undoctor."

At the time of writing this article, Jeff lives in Utah but works out of his main office that is located in New York. He's the father of nine children and the grandfather of twelve.

Dr. Patrick Gentempo

Dr. Patrick Gentempo is a well-known figure within the world of Western medicine and healing his groundbreaking research related to human wellness and nutrition. As a chiropractor, Gentempo has been able to create a massive business empire that most people could only dream of. In this regard, he holds a number of patents and has also published a number of highly regarded research papers.

As things stand, Patrick works as a post-graduate faculty member for a number of well-respected institutions. His work is routinely used by a number of back specialists throughout the United States. As mentioned previously, his work is routinely published in many peer-reviewed journals.

Last but not least, Dr. Gentempo was able to successfully make his way out of the diagnostic technology business in 2011 in order to pursue his lifelong passion for “bringing the truth about medicine to the public through the medium of filmmaking.

A few other key details worth pointing out

Funding for the 9-part docuseries will be carried out using an affiliate program. The pre-launch phase of the entire fundraiser has already finished but the official launch period is currently underway and will conclude today.

During the live airing period of the documentary, viewers will be given the opportunity to acquire a whole host of specialized merchandise and other film-related assets (worth up to \$279).

Users who help the project’s creators in their mission to raise funds will be provided with a 50% commission on any digital purchases and a 40% commission on physical purchases.

As mentioned previously, Jeff Hays and Dr. Patrick Gentempo from Revealed Films have already created a number of popular documentaries in the past. Not only that, their projects have been able to amass 1,000,000+ subscribers and \$10+ million in total revenue to date.

Jonathan Hunsaker, the creator of the docuseries, is the head of [Organixx](#). Not only that, it bears mentioning that Hunsaker’s marketing strategies have helped clients rake in profits of more than \$50M, of which \$50M have come from his docuseries sales.

Manny Goldman, one of the projects’ lead executives has previously worked on a number of popular films and documentaries. He is also the founder and CEO of many successful companies, namely Sacred Plant and The Healing Miracle.

Brett Fairall and Tracy Magee-Graham — two individuals who are responsible for having managed at least 10 mega-successful project launches — are also closely linked with The Answer to Cancer. Lastly, it bears pointing out that Brett is the co-owner of a number of successful businesses including Mimosa Mastermind, The Healing Miracle, etc.

Conclusion

The Answer to Cancer project has been gaining a lot of mainstream traction over the past month. This is in part thanks to the well-known executive team that is associated with the docuseries. For people looking to get more information about the project or those looking to get involved with the project, can visit the official company website and follow the instructions that have been there. Alternatively, users can also send in an email to one of the following addresses with their
